Pharmaceutical Laboratory Tester list

Remark:The YD,CS,RC,BJ series is necessary tester in pharmaceutical factory. 41.-43.is tester for powder and particle .

No	ITEM	MODEL	PHOTO	No	ITEM	MODEL	PHOTO
1.	YD-1A Tablet Hardness Tester (Manual Digital Display)	YD-1A		11.	RB-1 THAW TESTER (Suppository Disintegration）	RB-1	
2.	YD-2 Tablet Hardness Tester (Intelligent, auto Print)	YD-2		12.	RC-1 Dissolution Tester (One breaker and one pole,Intelligent flip)	RC-1	
3.	YD-3 Tablet Hardness Tester (Intelligent, Digital Display)	YD-3		13.	RC-3 Dissolution Tester (Three breakers and three poles, intelligent flip)	RC-3	
4.	CS-1 Friability Tester (Intelligent, double disc, speed adjustable and circle number adjustable)	CS-1		14.	RC-6 Dissolution Tester (Six breakers and six poles, manual flip)	RC-6	
5.	CS-2 Friability Tester (Intelligent, double-disk, speed is fixed and circle number is fixed)	CS-2		15.	RC-8 Dissolution Tester (Eight breakers and six poles, intelligent flip)	RC-8	
6.	CS-3 Friability Tester (Intelligent, double disc, speed is fixed and circle number adjustable)	CS-3		16.	RC-6D Dissolution Tester (Six breakers and six poles, intelligent flip)	RC-6D	
7.	CS-4 Friability Tester (Intelligent, single-disk, speed is fixed and circle number is fixed)	CS-4		17.	RC-8D Dissolution Tester (Eight breakers and six poles, intelligent lifting)	RC-8D	
8.	BJ-1 Disintegration Tester (one breaker, intelligent)	BJ-1		18.	RC-8DS Dissolution Tester (Eight breakers and eight poles, double intelligent lifting)	RC-8DS	
9.	BJ-2 Disintegration Tester (Intelligent, two breakers and two motors can work separately)	BJ-2		19.	RY-1 Melting Point Tester (simplify and manual labor)	RY-1	
10.	BJ-3 Disintegration Tester (Intelligent, three breakers and three motors can work separately)	BJ-3		20.	RY-2 Melting Point Tester (manual and digital display)	RY-2	
11.	RB-1 THAW TESTER (Suppository Disintegration）	RB-1		21.	RD-1 Melting Point Tester (Intelligent digltal display, manual oil bath is in line with USP)	RD-1

22.	HD-1Thickness Tester (Desktop type , for capsule)	HD-1		33.	Tablet four-usage tester (it has four functions:detecting pharmic dissolution, disintegration, friability /abrasion and hardness of tablet)	PJ-3	
23.	HD-2 Thickness Tester (Desktop type, for capsule/tablet)	HD-2		34.	Thaw tester (Testing thaw of the suppository)	RB-1	
24.	HD-3 Thickness Tester (Handheld type, for capsule)	HD-3		35.	CM-1 Clarify tester (Intelligent single side uses)	CM-1	25.	HD-4 Thickness tester (Handheld type , for capsule/tablet)	HD-4		36.	CM-2 Clarify tester (Intelligent two sides uses)	CM-2	26.	TM-1 Transparency Tester (Intelligent digital display)	TM-1		37.	SF-1 Fast Moisture Tester (Intelligent Infrared drying fast)	SF-1	
27.	TM-2 Transparency Tester (Manual labor)	TM-2		38.	JS-2 GELATIN GEL STRENGTH TEST SYSTEM Including : JS-2 Jelly strength tester HW-2 Constant temperature bath ZL-2 Refrigerator	JS-2	
28.	CJ-1 Magnetic stirrer (Intelligent and touch buttons)	CJ-1		39.	ND-1 Bloom viscosity tester (Intelligent Food gelatin, pharmaceutical gelatin and photo graphic gelatin)	ND-1	
29.	DJ-1 Motor stirrer (intelligent and touch buttons-3w)	DJ-1		40.	ND-2 Bloom viscosity tester (Intelligent Variety of gelatin)	ND-2	
30.	DJ-2 Motor stirrer (intelligent and touch button-30w)	DJ-2		41	Tap Density Tester for Powder (suitable for many powder mateiral and with printing function)	BHY-100	
31.	DJ-3 Motor stirrer (intelligent and touch button-70w)	DJ-3		42.	particle size analyzer (Button control) Particle size range: 0.1μm-716μm Dispersion type: Wet	BS-HT	
32.	DJ-4D Motor stirrer (Intelligent and touch buttons, timing digital display-120w)	DJ-4D		43.	Classic work for powder characteristic analysis Measurement: Angle of Repose, Angle of Collapse, etc.	BS-M1
